Our Bags

When producing your baby bags, we keep three things in mind as a 'formula':

1. STRONG

Not only it looks great for outing, BabyGo's diaper bag is also well-built and sturdy

Our bags are made from water resistant polyester material and bright orange waterproof furing for your convenience.
For cooler bags, we use best quality thermal foil (tear, air and water resistant) to maintain the best quality of a cold storage.

2. SMART

Our goal is not only to create something that will compliment your style, but will also provide the basic quality needed in order **to answer to your needs as parents.** With babyGo, parents' life will be much easier.

Our Bags

3. SIMPLE

Being simple and unisex, our bags are also well known as daddy friendly diaper bags. **Our simplicity adds more value** in a baby bag.

Company Social Responsibility (CSR)

Our CSR Program is about preserving sea turtles

Why sea turtles?

Sea turtles, one of the Earth's most ancient creatures, have been in this world for about 200 million years, since the time of the dinosaurs. There are seven species of sea turtles.

Indonesia, due to its strategically geographic position, has six out of the seven species of sea turtles in the world

Company Social Responsibility (CSR)

Only within the last 20 years, sea turtle's population in the world drastically decreased or even can be considered nearly extinct. Four of the total seven species have been identified as "endangered" or "critically endangered" with another two being classed as "vulnerable".

The extinction of sea turtles caused mostly by human doing. Beside sea pollution, hunting sea turtles' eggs also become one of the leading causes of this.

Company Social Responsibility (CSR)

By cooperating with Banyuwangi Sea Turtle Foundation (BSTF), babyGoinc is commited to help preserving sea turtles and teaching kids to be aware and care for their environment.

Banyuwangi Sea Turtle Foundation

Banyuwangi Sea Turtle Foundation (BSTF) is a non-profit and non- governmental organization whose mission is to protect and preserve the turtles, especially sea turtles that live outside of protected areas. The foundation was established on July 27, 2011 in Banyuwangi, East Java.
