Formulated Without:

SLS

PARABEN

FOSFATE

FORMALIN

TRICOLAN

Our products cover the daily necessities of babies, children, families and those with sensitive skin

pureco

CSR

Pureco has a purpose to provide a positive impact on the lives of our customers.

“**We aim to run and develop our business in a responsible manner** - offering household products that not only become healthier alternative for the society but also could have a positive impact on the environment.”

One environmental issue that we are concerned right now is **greenhouse gas emissions** and **greenhouse effect)*** that can cause **climate change and global warming.**

Reducing these emissions is crucial to address climate change and its consequences.

Greenhouse gas emissions are the release of gases like **carbon dioxide, methane, and nitrous oxide into the Earth's atmosphere through human activities such as burning fossil fuels and deforestation. These gases create a "greenhouse effect," trapping heat and leading to global warming, which **can result in climate changes, rising sea levels, and other environmental impacts.**

CSR

Carbon Offsetting Project

For Balancing Greenhouse Gas Emissions
In collaboration with Fairatmos

KATINGAN PEATLAND RESTORATION & CONSERVATION PROJECT

Is a project that reduces emissions from deforestation and forest degradation across the 149,800 hectares of peatland forest in Katingan Regency of Central Kalimantan, Indonesia.

Benefits for households in 34+ villages and home to around 314 plant species, 167 bird species, and 67 mammal species.
