DOVE DAY Indonesia

17 October 2025

Your body deserves more

Background of The Project

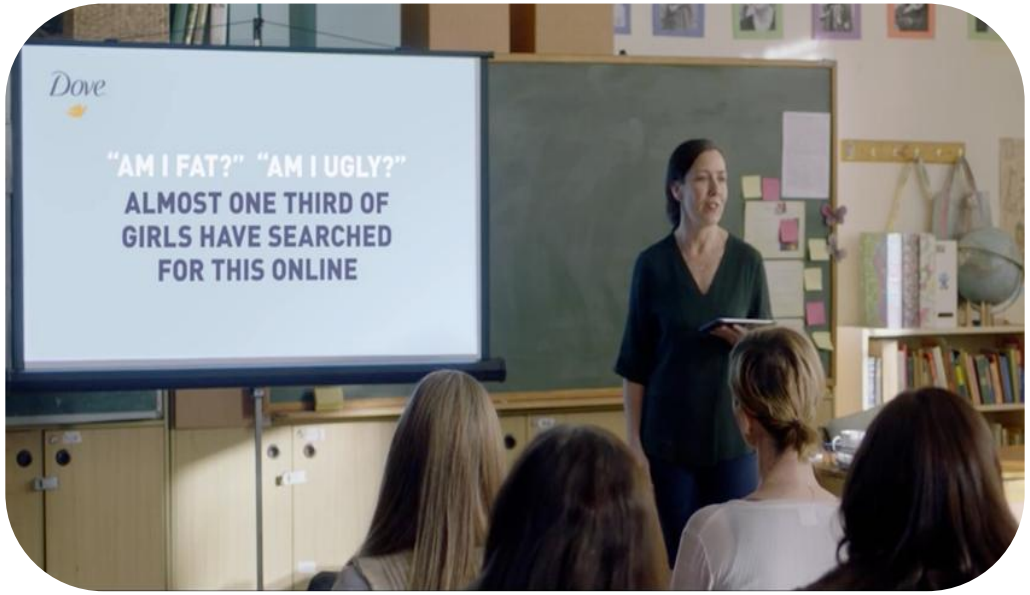

6 in 10 girls say they have not had confidence in school because they didn't feel good about the way they looked

Body image concerns can start to manifest in kids as young as 4-years-old. Positive self-esteem and body confidence is critical for a child's development and helps them do better at school.

The pressure to look a certain way can lead to long-term anxiety and unrealistic beauty behaviours. Almost half of young girls expect to worry more about their appearance as they get older.

Dove Day Celebration

On **International Day of the Girl (11th October)** Dove unites with partners and the community to raise awareness of the current state of young peoples' self-esteem and body confidence.

Dove Day, held annually on the 11th October, promotes **The Dove Self-Esteem Project's** mission by encouraging Unilever employees to conduct a first-hand body confidence workshop to young students in schools.

Over the past two decades, the DSEP has reached over 114 million young people in 153 countries with self-esteem and body confidence education.

Materials Technicalities

Introduction (3 mins)

- Introduce yourself and set the class rules
- Conduct the ice breaker activity:
- Think back to this morning. Put your hand up if:
- You put on your left shoe before your right shoe?
- You put on your right shoe before your left?
- You have no idea which shoe went on first (!)?
- You spent more than 10 seconds looking in the mirror?
- You asked yourself , ‘Do I look good enough for the day ahead?’
- This is what we are going to explore today … what does it mean to ‘look good enough’ and how can feelings around appearance affect body confidence?”

Appearance Ideals (6 mins)

- Ask the students what they think ‘Appearance Ideal’ and ‘Appearance Pressures’ mean
- **KOL tells their story on experiencing ‘appearance pressures’**

Appearance Ideals Film (6 mins)

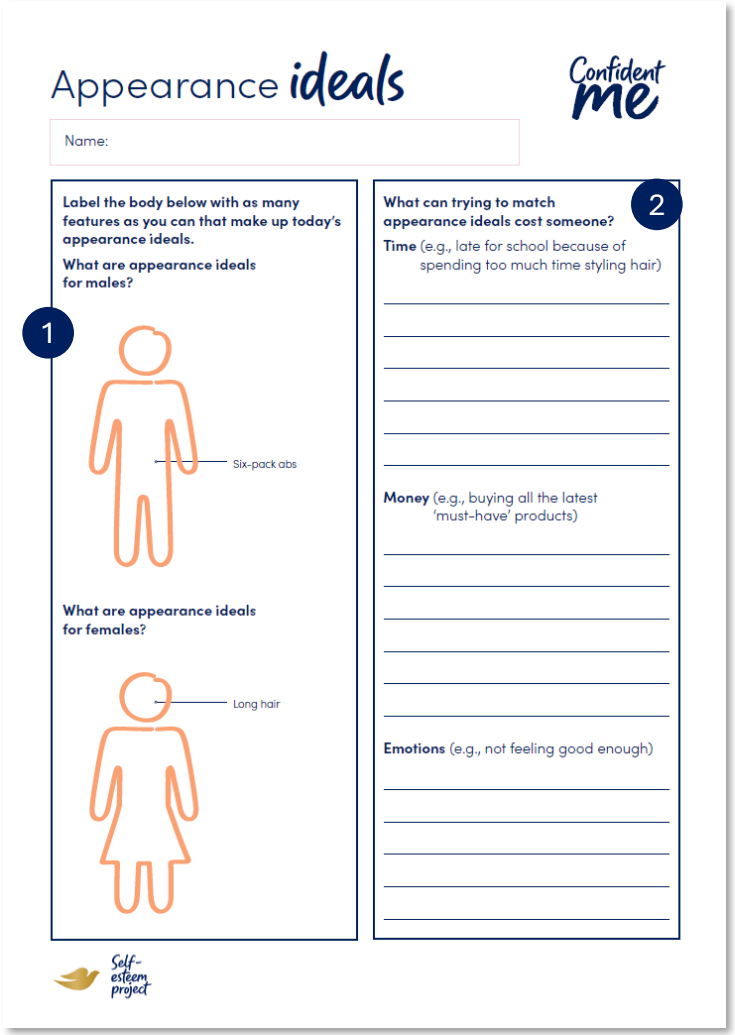

- Play the film and ask students:
- What they noticed?
- What were some of the changes in appearance ideals? Why?

Learning Reflection (3 mins)

- Ask three students to read out the statements

Worksheet Appearance Ideals

Appearance **ideals**

Confident me

Name:

Label the body below with as many features as you can that make up today's appearance ideals.

What are appearance ideals for males?

1

Six-pack abs

What are appearance ideals for females?

Long hair

What can trying to match appearance ideals cost someone?

2

Time (e.g., late for school because of spending too much time styling hair)

Money (e.g., buying all the latest 'must-have' products)

Emotions (e.g., not feeling good enough)

Self-esteem project

Challenging **appearance pressures** (private reflection)

Confident me

Name:

What could you do to show that you don't agree with the way professional media emphasises an unrealistic 'ideal' way to look?

3

What could you or others do differently on social media when creating or sharing pictures, films and messages?

How could changing your behaviour help people to feel better about the way they look?

Feeling stuck?

How could you let companies know that you are unhappy with the unrealistic images they use to sell products? Could you use social media to let others know you are unhappy? How would you do this?

Think about what you could do differently when you comment on your friends' photos? Could you change the type or style of photos you choose to upload?

How might it feel to see more realistic, unedited photos on social media? Would this reduce the appearance pressures people face?

Be a **champion for change!**

Work by yourself. Write down one thing you will start doing, or do differently, to champion what is 'real' in yourself and others as a result of today's workshop.

I pledge to

4

Feeling stuck?

Think about what will help you challenge the pressure you and your friends feel to look a certain way. Try to choose a simple action.

Pressure to look a certain way comes from the world around us.

It's important to remember images of people that we see in all types of media aren't always real.

It's unfair for people to compare themselves to this media.

Celebrate your individuality and the diversity of the people you know. We are all one of a kind!

Self-esteem project

Worksheet Appearance Ideals

3. Guide the students to reflect the appearance pressures they're experiencing through social media

(OPTIONAL)
Guide the students to answer what will they do to challenge appearance ideals
